ASSOCIATION -HQ
PRABHADEVI

MUMBAI,
INDIA

NAVIDENT

Presents

COMPREHENSIVE

Surgical & Prosthetic Navigation Workshop

New Era of Precision Dentistry

Technology will not replace clinicians, but those clinicians who use technology will replace those who do not.

LEARNING OUTCOMES

- Introduction to Dynamic Navigation Technology in Dentistry.
- Indications, Possibilities, Trends & Latest Advancements
- Navident Surgical & Prosthetic Workflow
- Understanding Navident Technology Protocols, & Treatment Planning & Surgical Software, in Micro-Endodontic Surgery, Socket Shield, Bone Augmentation, Sinus Lift & Advanced Surgical Procedures including Zygoma & Pterygoids Implants
- Clinical Case Studies & Discussions with
- Full Arch Implant Solutions with Photogrammetry Technology & Protocols with Demonstration.

LIVE SURGERY ON PATIENT.

Learn How To Collaborate:

- Surgeon
- Restorative Dentist
- Dental Labs in Achieving Perfection

through Navident & Micronmapper workflow

Hands-On Demonstration:

- Treatment planning using Navident Software
- **Live Surgical** Implant Placement On Patients with Navident system.
- Hands-on Workshop on Mannequins as Simulation Surgeries.
